

## LIST OF TABLES

<b>Table</b>	<b>Title</b>	<b>Page</b>
1.	Summary Comparison .....	19
2.	Typical Intersection Base Volumes .....	21
3.	Intersection Scenarios .....	22
4.	Failure Volumes for Intersection Types .....	34
5.	Suitable Intersection Failure Volumes .....	36
6.	Provided Construction Cost Estimates .....	36
7.	Suitable Intersection Summary .....	37
8.	Final Construction Cost Estimates .....	39
9.	Delay Costs .....	40
10.	Change of Delay Costs .....	41
11.	Benefits .....	41
12.	Costs .....	42
13.	Benefit/Cost Ratios Grade Separated Design.....	42
13A.	Benefit/Cost Ratios At-Grade Design .....	43
14.	Intersection Recommendations .....	43
15.	Scenario 1 Volumes .....	49
16.	Scenario 1 Measures of Effectiveness .....	49
17.	Scenario 1 Measures of Effectiveness .....	50
18.	Scenario 2 Volumes .....	50
19.	Scenario 2 Measures of Effectiveness .....	51
20.	Scenario 2 Measures of Effectiveness .....	51
21.	Scenario 3 Volumes .....	52
22.	Scenario 3 Measures of Effectiveness .....	52
23.	Scenario 3 Measures of Effectiveness .....	53
24.	Scenario 4 Volumes .....	53
25.	Scenario 4 Measures of Effectiveness .....	54
26.	Scenario 4 Measures of Effectiveness .....	54
27.	Scenario 5 Volumes .....	55
28.	Scenario 5 Measures of Effectiveness .....	55
29.	Scenario 5 Measures of Effectiveness .....	56
30.	Scenario 6 Volumes .....	56
31.	Scenario 6 Measures of Effectiveness .....	57
32.	Scenario 6 Measures of Effectiveness .....	57
33.	Scenario 7 Volumes .....	58
34.	Scenario 7 Measures of Effectiveness .....	59
35.	Scenario 7 Measures of Effectiveness .....	59
36.	Scenario 8 Volumes .....	60
37.	Scenario 8 Measures of Effectiveness .....	60
38.	Scenario 8 Measures of Effectiveness .....	61
39.	Final Construction Cost Estimates .....	62
40.	Benefit/Cost Ratios Grade Separated Design .....	62
40A.	Benefit/Cost Ratios At Grade Design .....	63
41.	Summary of Designs with One Intersection .....	64
42.	Summary of Designs with Three Intersections .....	65
